

Now you can enjoy virtually the Most delicious, freshest and healthiest Drinking water possible for pennies a day...

Anytime • While Traveling • During Outdoor Sporting Activities •
Hunting • Camping • During Unexpected Emergencies •
Anytime a Reliable and Healthy Source of Purified Water is Desired.

Berkey® Water Purification Systems are the ultimate in water purification and the ideal personal protection traveling companions. Used worldwide for normal, hostile and emergency environments to provide the purest, sparkling clean water possible...

The powerful **Berkey Light™** system purifies treated water and untreated raw water from such sources as remote lakes, streams, stagnant ponds and water supplies in foreign countries, where regulations may be substandard at best.

Perfect for everyday use and a must in hostile environments where electricity, water pressure or treated water may not be available.

The powerful **Berkey Light™** is the most flexible water purifier available providing reliable, user friendly and economical water purification in any environment.

Easy Setup and Simple Installation:

The **Berkey Light™** system sets up in minutes. Simply screw in the purification elements and spigot, snap the chambers and base together and you are ready to purify your water.

For generations, health-conscious people around the world have recognized that the foundation to a healthy life and healthy body is clean, fresh drinking water. This important essential element is the basis for enjoying your longest, healthiest life. No amount of vitamins or supplements can substitute for the vital life-sustaining properties found in nourishing, healthful drinking water. It is truly the foundation of life.

The revolutionary **Berkey Light™ self-sterilizing and re-cleanable elements** purify water by removing pathogenic bacteria, cysts and parasites entirely and by extracting harmful chemicals such as herbicides, pesticides, VOCs, organic solvents, radon 222 and trihalomethanes. They also reduce nitrates, nitrites and unhealthy minerals such as lead and mercury without removing the healthful and nutritional minerals that your body needs.

- ***Test Results:** Pathogenic bacteria are removed to non-detectable levels.
- ***Test Results:** Parasites and cysts are removed to non-detectable levels.
- ***Test Results:** Chemicals are removed to below detectable limits.
- ***Test Results:** Radon 222 removed to below detectable limits.
- ***Test Results:** Heavy metals reduced by up to 95%.
- Re-cleanable and self-sterilizing purification elements.
- Low energy 8 lamp LED option for night light, ambience and emergency lighting.
- Luminescent system can be used in no or low light conditions.
- LED lamps can be powered by the internal rechargeable batteries, the AC adapter, The **Berkey Battery Adapter™** case (optional), or the **Berkey MP Solar™** charger (optional).
- Transparent chamber provides for easy view of water levels.
- Ambient and relaxing luminous effects.
- Soothing sound of raindrops.
- Water deflecting ridges.
- Elevated base allows the system to be used anywhere on a flat surface.
- Portability while system is purifying water.

** See charts for specific contaminants*

Berkey® Water Filters

"Simply the Best"

New Millennium Concepts Ltd.

Unfortunately, securing your access to good tasting, sparkling and wholesome drinking water can be harder than you might expect. Drinking water may contain lead, high levels of harmful bacteria, herbicides, pesticides and other unwanted chemicals. Frequently these produce unpleasant tastes and odors. Even bottled water can contain these same contaminants, and moreover it is inconvenient and expensive. Other filtration systems are inferior. Most do not remove, or even reduce, pathogenic bacteria, harmful chemicals and minerals and many remove the beneficial minerals that your body needs.

Black Berkey® Purification Elements are more powerful than any other gravity filter element currently available. In fact, we tested the **Black Berkey®** purification elements with more than 10,000 times the concentration of pathogens per liter than is required by standard test protocol. This concentration of pathogens is so great that the post filtered water should be expected to contain 100,000 or more pathogens per liter (99.99% reduction - the requirement for pathogenic removal). Incredibly the elements removed 100%. Absolutely no pathogens were cultured from the effluent or were able to be detected even under an electron microscope, setting a new standard in water purification.

The powerful **Black Berkey®** purification elements also remove or reduce pathogenic cysts, parasites, harmful or unwanted chemicals such as herbicides and pesticides, VOCs, detergents, organic solvents, trihalomethanes, cloudiness, silt, sediment, nitrates, nitrites, heavy metals, foul tastes and odors, yet they leave in the healthful and beneficial minerals that your body needs and...

Existing gravity filters can be upgraded. **Black Berkey®** purification elements fit most gravity filter systems, vastly improving their ability to remove contaminants.

The **Black Berkey®** purification element formulation has been tested by State & EPA accredited laboratories to exceed EPA & ANSI/NSF (Std. 53) protocol. Tested by the University of Arizona, Spectrum Labs, the Department of Toxicology and Environmental Science, Louisiana State University.

PATHOGENIC BACTERIA CYSTS AND PARASITES removed to non-detectable levels:
E. coli - Klebsiella - Pseudomonas aeruginosa - Giardia - Cryptosporidium

TRIHALOMETHANES removed to below detectable limits:
Health effects: muscle & nervous system disorders, cancer
Bromodichloromethane - Bromoform - Chloroform - Dibromochloromethane

RADIOLOGICALS removed to below detectable limits:
Radon 222

INORGANIC MINERALS removed to below detectable limits:

CONTAMINANT	HEALTH EFFECTS
Chlorine Residual	cancer, birth defects

VOLATILE ORGANIC COMPOUNDS (VOC's) removed to below detectable limits:
Alachlor, Atrazine, Benzene, Carbofuran, Carbon Tetrachloride, Chlorine, Chlorobenzene, Chloroform, 2,4-D, DBCP, p-Dichlorobenzene, o-Dichlorobenzene, 1, 1-Dichloroethane, 1, 2-Dichloroethane, 1, 1-Dichloroethylene, cis-1, 2-Dichloroethylene, Trans-1,2-Dichloroethylene, 1, 2-Dichloropropane, cis-1,3-Dichloropropylene, Dinoseb, Endrin, Ethylbenzene, Ethylene Dibromide (EDB), Heptachlor, Heptachlor Epoxide, Hexachlorobutodiene, Hexachlorocyclopentadiene, Lindane, Methoxychlor, MTBE, Pentachlorophenol, Simazine, Styrene, 1,1,2,2-Tetrachloroethane, Tetrachloroethylene, Toluene, 2,4,5-TP (Silvex), 1,2,4-trichlorobenzene, 1,1,1-trichloroethane, 1,1,2-trichloroethane, Trichloroethylene, o-Xylene, m-Xylene, p-Xylene.

HEAVY METALS reduced by up to 95%:

CONTAMINANT	HEALTH EFFECTS
Lead	kidney, nervous system damage
Mercury	kidney, nervous system disorders
Aluminum	respiratory, nervous system disorders
Cadmium	kidney damage
Chromium	liver, kidney, circulatory system disorders
Copper	gastro-enteric diseases

ALSO REMOVES OR REDUCES: Nitrates, Nitrites, Rust, Silt and Sediment

No need for expensive disposable filters. **Black Berkey®** purification elements are re-cleanable. When the flow rate decreases simply brush the **Black Berkey®** purification elements with a ScotchBrite® pad under running water, reinstall and your system is again ready to purify water. Each durable and efficient purification element will last for up to 3,000 gallons (6,000 gallons per set of two) and provide years of efficient water purification. What's more, the unique **Black Berkey®** purification elements are self-sterilizing.

Description	Capacity	Size	Price	QTY	Amount
Berkey Light™ (complete with filters)	2 3/4 gal.	26.5" Hx 9"D 21" w/o base	\$209

The Berkey® Secret

Have you ever wondered how the **Berkey Light™** purification system removes pathogenic bacteria, cysts and parasites while extracting chemicals including herbicides, pesticides, organic solvents, VOCs, detergents, cloudiness, silt, sediment, foul tastes and odors? Or, how the **Berkey Light™** is able to reduce heavy metals such as cadmium, chromium, copper, lead, mercury, aluminum and other dangerous heavy metals, as well as nitrates and nitrites without removing the healthful and beneficial minerals that your body needs?

The **Berkey Light's™** unique design combines the age-old process of micro-porous filtration coupled with modern state-of-the-art technology and the highest quality materials to bring you the finest water purification system available anywhere. The micro-pores within the self-sterilizing and re-cleanable **Black Berkey®** purification elements are so small that pathogenic bacteria are simply not able to pass through them. The media within the elements remove contaminants by a surface phenomenon known as "adsorption" which results from the molecular attraction of substances to the surface of the media. The exclusive purification elements are also impregnated with proprietary "absorbing" media that promote IONIC "absorption" of pollutants within the micro-porous elements.

Another reason the **Berkey Light™** system is so effective in removing contaminants from water is the extremely long "contact period". Other filtration systems rely on water pressure and force water molecules through the filter elements at 60-90 PSI. These water molecules come into contact with the filter media for a mere fraction of a second. By comparison water molecules, passing through the "Tortuous Path" structure of the **Berkey Light™** purification elements, are drawn gently by gravity and stay in contact with the media for a long period of time. This allows the filter media to be more efficient in capturing contaminants. For example, if you were to hurl 100 steel ball bearings at a large magnet, some would stick but most would bounce off. However, if you were to walk over and gently place the ball bearings on the magnet most, if not all, would adhere to the magnet. The **Berkey Light™** system fully utilizes this principle.

This advanced technology was developed, refined, and proven through years of diligent, investigative research and testing performed by water purification specialists, researchers and engineers. The flow rate or time of exposure through the exclusive **Black Berkey®** purification elements has been calculated to yield the greatest volume removal of toxic chemicals and pathogenic bacteria found in nature and caused by pollution from industry and agriculture.

The base has an optional eight-lamp LED lighting system, available in practical white or beautiful cobalt blue, allowing for optimum use day or night. Incredibly, the **Berkey Light™** LED lamps have an average life of over 11 years of continuous use and are so bright the white LED's can be spotted for more than a mile in the dark, yet they require very little energy. The low energy LED's are able to **provide light, all night long, for over two weeks on a single set of four AA alkaline batteries.** This makes the **Berkey Light™** the ideal nightlight, camping-light and emergency light. What's more, the detachable base can be used as a stand-alone emergency flashlight.

As water is being purified, the **Berkey Light™** produces the delightful and relaxing sound of falling raindrops. These water droplets light up and glow and the resulting waves reflect soothing patterns of light onto the surrounding area. The lighting effects coupled with the melody of raindrops, combine to create a unique and relaxing atmosphere.

So powerful, this system is able to **remove food coloring from water without removing the beneficial minerals your body needs. Virtually no other filtration element can duplicate this performance.**

How the Berkey Light™ Operates

Berkey Light™ water purifiers are the most practical, user friendly and economical water purification systems available. To use, water is poured into the upper chamber. Gravity draws the water through the exclusive **Black Berkey®** purification elements. Contaminates are captured on and within the micro-porous purification elements and are separated from the water. The purified water then collects in the lower chamber where it can be drawn through the spigot. While in use, the system is joined together allowing the **Berkey Light™** to be transported while it purifies water. This feature is useful when purified water is required in one location, such as in a food preparation area, and later in another location such as a dining area. There is no guesswork when refilling the system because the water level, in both chambers, is visible at all times. The elevated base raises the spigot level, allowing the **Berkey Light™** to be utilized anywhere on a flat surface.

Berkey Light™ The

Anywhere - Go Anywhere Water Purifier

The adaptable **Berkey Light's™** LED lighting system is designed for long-term use even when electrical power is not available. If electricity is available, the LED lamps can be powered by the AC adapter (*included with LED base*) or the internal rechargeable batteries (*included with LED base*). When power is not available, the **Berkey Battery Adapter™** case (*optional*) provides an incredible two weeks of nighttime light from four small AA alkaline batteries and the **Berkey MP Solar™** charger (*optional*) provides for an endless source of power.

The shatter resistant and virtually unbreakable **Berkey Light™** is made of high impact strength Lexan® which, ounce for ounce, is stronger than steel. In fact, this is the same material used for making bulletproof glass. The **Berkey Light™** does not leach foul tasting plasticizers into your water and will not retain foul tastes and odors from waterborne contaminants.

Berkey® water filters and purifiers have become the standard of excellence by which all other water filtration systems are measured. You deserve the freshest, cleanest water possible from the world's most superior water purification systems.

→ **HEALTHY** – The **Berkey Light™** purifier is far superior to ordinary water filters because it removes harmful pathogenic bacteria, cysts and parasites to non-detectable levels, removes harmful or unwanted chemicals to below detectable levels, and reduces nitrates, nitrites and unhealthy heavy metals, such as lead and mercury, without removing the healthful and nutritional minerals that your body needs. It's simply the most healthful, clean and delicious water available.

→ **CONVENIENT** – The **Berkey Light™** purifier assembles in minutes without tools, electricity, water pressure, or plumbing. What's more, it is simple to operate and maintain.

→ **ECONOMICAL** – Virtually the most economical water purification system you can own. Its unique design allows you to easily remove and clean its **Black Berkey®** purification elements over and over again.

→ **POWERFUL** – The powerful **Berkey Light™** system purifies treated water and untreated raw water from such sources as remote lakes, streams, stagnant ponds and water supplies in foreign countries, where regulations may be substandard at best. What's more, it's the ideal water purification system to have on hand in the event of blackouts, hurricanes, floods and local or national emergencies when treated water is not available.

→ **FLEXIBLE** – The **Berkey Light™** purifier is simple and convenient to use and can be utilized anywhere purified water is desired including vacations, hunting, camping trips, RV's and boats.

→ **DURABLE** – The system's transparent chambers are made of high impact strength Lexan®, the same material used for making bulletproof glass, making the **Berkey Light™** purifier rugged and durable.

→ **LUMINESCENT** – The optional eight LED lamps are so bright they can be spotted for more than a mile in the dark and incredibly, they are able to provide light, all night long, for over two weeks on a single set of four AA alkaline batteries. This makes the **Berkey Light™** purifier the ideal nightlight, camping light and emergency light. What's more, the detachable base can be used as a stand-alone emergency flashlight.
